

## What is AquaGo?

The new physical and aquatic literacy program developed by Canada Artistic Swimming, a nation-wide grassroots foundation program for artistic swimming in Canada. This new program reflects the current science behind long-term athlete development (LTAD) in the sport of artistic swimming, focusing on developing aquatic literacy as well as providing an introduction to the sport.

**Aquatic Fundamentals,  
with a focus on the FUN part!**

**Session 1 choice of:**

**Thursdays 4:00-5:00 pm**

**Oct 24th to Jan 23rd**

**Fridays 4:30-5:30 pm**

**Oct 25th to Jan 24th**

- Swimmers should be comfortable in the water and jumping into the water without the assistance of a life jacket
- Swimmers should have previous beginner swimming lesson experience

*Get ready to be wowed by what you can do in the water*

The program is based on the four pillars of artistic swimming skills:

### ARTISTIC SWIMMING SKILLS

Participants will be introduced to fundamental artistic swimming skills which will be developed and acquired throughout the AquaGO! program.

### SWIMMING FUNDAMENTALS

Acquiring fundamental swimming skills is an essential component to developing the artistic swimmer. Participants will develop and strengthen their aquatic literacy at every level of the program.

### FLEXIBILITY

Flexibility is a priority skill to the development of the artistic swimmer, and essential suppleness skills are included at all levels of the program to ensure the participant gains important flexibility skills for success in and out of the water.

### ATHLETIC ABILITIES

The development of fundamental movement skills (both on land and in the water), speed, strength and stamina are important for all children and for the development of the artistic swimmer. These athletic abilities are included at all levels of the AquaGO! program to ensure the balanced development of the participant.
